

Genetic CONNECTION

August 4, 2018 12:00 CST

at Cullman Stockyards, Cullman, AL

On behalf of the consignors of the Genetic Connection Sale I would like to extend an invitation to you for this year's sale on August 4th, 2018 at the Cullman Stockyard starting at 12 noon. All cattlemen are constantly working to improve their herds, and with this year's sale offering the opportunity to improve your certainly exist. We have assembled a great set of cattle whether you are looking purebred Simmental, SimAngus™ or that perfect purebred Angus.

This year we have Donor Cows, open heifers, bred heifers (fall and spring calving) 3N1 cow/calf pairs as well as some special genetic packages to select from. The cattle markets have stabilized this year and all trends are pointing to a steady market ahead of us. It has never been more important to get the most value from every animal as it is today, and the Genetic Connection Sale offering truly has what it takes to keep you in the cattle business for years to come.

Once again, we look forward to visiting with you in Cullman on August 4th. If you have any questions please give us a call, or if you just want to talk cow we would love to hear from you.

- Our commitment to offering quality cattle makes this donor available for your appraisal. SS-DS Class Above AKA "Candy Cane" was our pick at the Head of the Class sale in 2014. She offers plenty of eye appeal, depth of body and soundness that has made pasture and show champions from this family. She was the Grand Champion Purebred at the 2015 Mississippi State Fair and the 2016 Dixie Nationals. Her calf at side is sired by TKCC Certified 7C, a member of the champion pen of bulls at the 2016 NWSS.FFS Faith is sound on the move and plenty of stoutness and a good look. Class Above froze a total of 21 embryos on two IVF cycles. A Really complete pair with great rewards. Sells open and ready to flush.
- Sells with 3 embryos sired by STCC Hack Sparrow, ASA#2886375

- Red heifers are relatively rare among Simmental breeders in the southeastern US but more common in the western states. Destiny 611D has an interesting history in that she is the result of a 20+ year frozen embryo. Her sire New Horizon was the \$5,000 top selling bull at the 1994 Silver Towne sale, later excelling out the show circuit as the Reserve Senior Champion of the 1995 Dixie National and Reserve Grand Champion of the 1995 Georgia National Stock Show. Her dam Belinda 91E was a product of the famed Emmous Ranch in Montana. We decided to "go back to the future" with this embryo. She is an outstanding thick docile red heifer and will make an impact in your program. She is pasture bred to a son of Surefire, a calving ease/carcass merit Angus herdsire.

- D626 is the bred heifer that everyone wants to know about. The only reason she is being offered for your appraisal is that we wanted to offer some of our very best genetics. D626 is sired by Shear Force out of the Lucy cow we owned with Riverbend Ranch. D626 is a very clean fronted heifer that transitions into her shoulders perfectly with the spring of rib and depth of body the industry is demanding today. In my opinion, this heifer will work her way into someone's donor pen in short order. Homo Black and Homo Polled.

- We will find the real cowboy's now. C26 is an Angus first calf heifer sired by Tour Of Duty. To know her potential just look at her heifer baby at her side. There is not much to change here. C26 had a successful show career and is now showing us what her real ability is as a young cow. We liked the Cowboy Up calf so much we Ald her back the same way. All of the guess work has been done. C26 is registered in the Angus herdbook (AAA 18358955) as well as the Simmental herdbook (ASA 3082642). AI bred to HA Cowboy Up, AAA#18286467 on May 15, 2018 Due Feb. 20, 2019. F 826 is a fancy March Angus heifer that sure can stand lots of competition. Whether you are looking for the highly competitive show heifer or an Angus with real cow power F826 sure marks all of the boxes. Sired by HA Cowboy Up (AAA 18286467).

- Ald: HA Cowboy Up, AAA#18286467 on 5/15/18. Due 2/20/19

- D615 is a registered Angus heifer sired by the carcass oriented GAR Prophet. Her dam is a Ten X cow we purchased from Emuckfaw Creek Farm. D615 is entered into the Angus herdbook as well as the Simmental registry. This heifer sure can put the marbling into your calves because she ranks in the top 1% of the breed in that trait. Just look at her EPD profile, if you are wanting to add growth and carcass then this heifer should clearly be on your "must have" list.

- Heifer pregnancy. U056 is the SimAngus that we are using to produce the next generation of percentage cattle. U056 is as picture perfect as we can find. Starting with her freaky sharp fronted and as much depth of body as you can imagine with the most perfect udder and teat placement while walking around on a huge foot. If you cant tell I am truly excited about the possibilities here. I flushed her to HTP/SVF Duracell.. This mating has to get you excited about the future. Here you will have a heifer calf early September. The recip is a registered halfblood ASA2436903. T129 is a daughter of the great NJC Ebony Antoinette sired by BC Marathon.
